

FARONICS

DEEP FREEZE™ STANDARD

ABSOLUTE WORKSTATION INTEGRITY

❖ Eliminate Downtime

Avoid the frustration of downtime caused by software conflicts, registry corruption, operating system deterioration, virus attack, lost network or Internet connection, printer inaccessibility, or any other problem. Whatever anybody does to a computer, Deep Freeze makes the changes instantly disappear. All files, programs, and settings are completely restored to their original configuration every time a workstation restarts.

❖ Supplement your Group Policies

Deep Freeze operates on a workstation level, protecting both the workstation and the Group Policies settings, and providing complete peace of mind to system administrators. Should any Group Policy setting become corrupted or deteriorate with time, Deep Freeze returns the workstation to its original configuration, restoring all settings upon every restart.

❖ Optimize & Preserve Workstation Performance

Deep Freeze prevents permanent changes to your carefully developed Standard System Configuration while providing a non-restrictive environment for users. Workstations can literally run for years without a single problem when using Deep Freeze. Each restart eradicates all changes and resets the workstation to its original state, right to the last byte.

Restart and Restore.

Deep Freeze is the benchmark for bulletproof workstation protection.

Deep Freeze is simple, easy to use, and installs in seconds — configuration requires only a password.

All computers are completely restored to their original software configuration by performing a simple restart.

Because all changes to the workstation are temporary, you never have to worry about disk fragmentation or OS deterioration.

Any rogue software or virus impacts, just like any other change, are eliminated upon restart.

Three steps for bulletproof protection:

- ❖ Set up your workstation the way you want
- ❖ Install Deep Freeze
- ❖ Restart to restore

Deep Freeze protects over 5 million computers worldwide - 24 hours a day, 7 days a week.
