

FARONICS

SYSTEM PROFILER

SEE THE WHOLE PICTURE

❖ KNOWLEDGE IS POWER. BE POWERFUL.

See the whole picture with Faronics System Profiler, a unique software utility that generates a detailed inventory of a workstation's configuration and properties. This program proves to be a powerful asset to Faronics and has now been released, free of charge, for all users.

- ❖ Diagnose hardware and software problems quickly
- ❖ Keep an accurate list of your hardware and software
- ❖ Use it when purchasing a new or used PC to see exactly what you're buying
- ❖ Catalog the version numbers for all installed applications
- ❖ Keep track of all applied Application and OS updates
- ❖ Find out how much room your computer has for expansion of RAM and PCI cards

This one-of-a-kind, easy-to-use freeware product is an excellent tool for identifying the root of a technical issue on a workstation.

System Profiler provides both a summary and a detailed report of the following aspects of a system:

- ❖ Machine
- ❖ Physical Drives
- ❖ Logical Drive Volumes
- ❖ CPU/Cache
- ❖ Motherboard/Memory/BIOS
- ❖ Operating System
- ❖ Running Programs
- ❖ Network Connections
- ❖ Installed Applications
- ❖ Faronics Software
